Hello,

Women's & Men's Health Services (WAMHS) is planning a community breast cancer awareness campaign during Breast Cancer Awareness Month to promote the importance of routine breast health and annual screenings.
As part of this campaign, we would like to wrap designated trees with pink ribbons and place informational signs in the courthouse area. The signs will encourage community members to stay up to date with recommended breast cancer screenings and provide information about WAMHS and the healthcare services available in our community. Our goal is to create a visible reminder that encourages early detection, preventive care, and awareness of available healthcare resources.
We respectfully request permission to place the pink ribbons and informational signs within the designated area for the duration of the campaign. All materials will be placed neatly and safely without interfering with normal use of the property. WAMHS will be responsible for removing the materials at the conclusion of the campaign.
A sample of the proposed sign is attached for your review.
Thank you for considering our request and for helping us bring awareness to the importance of breast health within our community.

RE: Request to Use Maverick County Lake for First Annual Trunk or Treat for Pets

Dear Honorable County Judge Garcia and Members of Commissioners Court:

On behalf of Viva K9 Training, Boarding & Grooming Center and The Buddy Foundation, we respectfully request permission to use the upper area of Maverick County Lake for our First Annual Trunk or Treat for Our Loving Pets, scheduled for Wednesday, October 28, 2026, at 6:00 p.m.

This community event is being organized by Kina Mancha of Viva K9 Training, Boarding & Grooming Center and Sandy Tovar of The Buddy Foundation. Our goal is to provide a safe, family-friendly event where members of our community can bring their pets to enjoy an evening of Halloween fun. Participants will be invited to decorate their vehicles and distribute dog-friendly treats and goodies to the pets attending the event.

We believe this event will provide a wonderful opportunity to bring pet owners, families, local organizations, and members of our community together while promoting responsible pet ownership and celebrating the special role animals have in our families.

We respectfully request the approval of Commissioners Court to utilize the upper area of Maverick County Lake for this event. An event flyer has been attached for your review and additional information.

We sincerely appreciate your time and consideration of our request, as well as your continued support of community activities that benefit the residents and animals of Maverick County.

Should you require any additional information regarding the event, please feel free to contact us.

Respectfully submitted,

Subject: Facility Use Permission Request for Charity Fundraiser on October 3, 2026
Dear Parks and Recreation Committee / Facility Administrator,

I am writing to formally request permission to use the facilities at Maverick County Lake for a fundraising event hosted by the Southwest Texas College Law Enforcement Academy, specifically representing the Charlie 27 class.

The event is scheduled to take place on Saturday, October 3, 2026. We would like to reserve the facility from 0700 hours to 1400 hours, which includes our necessary setup and clean-up time. The purpose of this fundraiser is to support the cadets of the Charlie 27 class as they prepare for their upcoming graduation and transition into active public service. All proceeds raised during this event will directly benefit the academy class for necessary equipment, training resources, and graduation expenses. We anticipate an attendance of approximately 25-30 participants and will ensure that the area is fully cleaned and restored to its original condition immediately following the conclusion of the event.

We highly appreciate your consideration of this request to support our future law enforcement officers. Please let us know if there are specific application forms, fees, or proof of insurance requirements we need to submit to finalize this reservation.
Thank you for your time, support, and dedication to our community. I look forward to hearing from you soon.

If you have any questions or concerns, please feel free to contact me at 830-282-2760. With gratitude,

Jose M. Cervantes,

Hello Sheriff Schmerber,

You are receiving this email because you are listed as the Project Director for one or more FY2025 Homeland Security Grant Program subawards that include personnel costs to be charged directly to the grant.

Affected Grant:

- 3594009

Beginning in FY2025, FEMA non-disaster Notices of Funding Opportunity (NOFOs) include specific requirements for subrecipients to vet and document foreign nationals when personnel costs will be charged to federal awards.

The Public Safety Office (PSO) serves as the primary recipient for the Homeland Security Grant Program. Any organization or agency receiving FEMA grant funds passed through the PSO is considered a subrecipient.

As a subrecipient, your organization is responsible for understanding and complying with the requirements outlined in the attached **FEMA Information Bulletin #568: Policy and Process for Foreign National Vetting in FEMA Non-Disaster Grant Programs**.

After reviewing the bulletin, please complete the attached PSO - Subrecipient Certification of Compliance with Foreign National Vetting Requirements and upload the completed Subrecipient Certification to the **Upload Files** tab in eGrants for each of the affected grants listed above by **September 11th, 2026.**

Please note: The PSO does **NOT** collect, transmit, or retain Form I-9 documentation from subrecipients. Form I-9 records should remain with the employing subrecipient and are **NOT** submitted to FEMA or the PSO as part of this process. At this time, the only documentation required is the completed Subrecipient Certification.

If you have any questions regarding this requirement, please contact your grant manager listed in eGrants.

Thank you for your prompt attention to this matter.

Subject: Environmental Review Record CFC24-0100 Venesa Street Improvements Project

Good afternoon,

I am providing you with the link for the Environmental Review Record (ERR) for CFC24-0100 Venesa Street Improvement Projects. The ERR was submitted on 8/11/2025. The ERR was approved and certified by the Texas Department of Agriculture and issued the Authorization to Use Grant Funds on 9/22/25.

LINK: https://drive.google.com/file/d/1pfyeJ21l0f7YvHiJt6QZCxNsd-2Wp9R9/view?usp=drive_link

A budget amendment was approved in commissioner court last week that would leave the aforementioned grant account at a balance of $127,650.00.

I have emailed the county auditor in reference if she requires a new purchase order for the amount of the balance. Currently, the auditor's office has three purchase orders in reference to this project. I have yet to receive a reply on how they wish to proceed.

In the interest of moving this project along, can you please provide anticipated dates for the following:

1. When is the review of the environmental review record anticipated to be completed by MRGDC?

2. When can we expect the auditors to release payment to engineer?

As per the meeting with TDA that included the Director Suzanne Bernard, Maverick County needed to award the construction by September 30, 2026. I have attached the email for your reference. Unfortunately, due to the continuous delays in payment, Maverick County will be penalized for one year after this project is completed.

Statement of Work

Purpose

The purpose of this agreement is for the United States Department of Agriculture, Natural Resources Conservation Service, hereinafter referred to as the "NRCS," to provide technical and financial assistance to Maverick County, hereinafter referred to as the "Sponsor," for EWP Program Project No. 5120 in Maverick County, Texas, for implementation of recovery measures that if left undone, pose a risk to life and/or property.

Objectives

The design and installation of Emergency Watershed Protection (EWP) program measures as detailed in the individual Damage Survey Reports (DSRs) and described below.

- DSR 48-23-26-5120-017 – streambank and shoreline protection – Sponsor A/E design – Maverick County, TX

Budget Narrative

The official budget described below will be considered as the total budget as last approved by the Federal awarding agency for this award.

Amounts included in the Budget Narrative are estimates. Reimbursement will be based on actual expenditures not to exceed the amount obligated.

Total Estimated Project Budget: $88,775.00

The budget includes:
Financial Assistance (FA) Costs:
Construction Costs (75% NRCS $61,931.25 + 25% Sponsor $20,643.75): $82,575.00

Technical Assistance (TA) Costs:
100% NRCS up to $6,200.00

1. NRCS pays up to 75 percent of eligible construction costs and Sponsor pays 25 percent of construction costs. NRCS will contribute up to $6,200.00 for administration and technical services. It is possible that technical and administrative costs will exceed this amount, requiring the Sponsor to contribute resources to complete technical and administrative work. Construction, administrative, and technical costs incurred prior to the sponsor and NRCS signing this agreement are ineligible and will not be reimbursed, nor will such costs qualify as Sponsor cost-share.

2. NRCS funding for this project is provided to the Sponsor in two separate NRCS funding accounts: one account for financial assistance (FA) and one for technical assistance (TA). FA costs are associated with construction activities; TA costs are associated with services. These expenditures shall be accounted for separately for expenses to be eligible for reimbursement.

3. NRCS will provide FA for actual costs as reimbursement to the Sponsor for approved on-the-ground construction costs, subject to the limits listed. If costs are reduced, reimbursement will be reduced accordingly. Construction costs are associated with the installation of the project measures including labor, equipment, and materials.

4. NRCS will provide TA reimbursement to the Sponsor for technical and administrative costs directly charged to the project, subject to the limits listed. If costs are reduced, reimbursement will be reduced accordingly. These costs shall include:

a. Engineering costs include, but are not limited to, developing a project design that includes construction drawings and specifications, an Operation and Maintenance Plan, a Quality Assurance/Inspection Plan, and an engineer's estimate of the project installation costs in addition to providing necessary quality assurance during construction.
b. Contract administration costs include, but are not limited to, soliciting, evaluating, awarding and administering contracts for construction and engineering services, including project management, and verifying invoices and record keeping.

5. The Sponsor will contribute funds toward the total construction costs in either direct cash expenditures, the value of non-cash materials or services, or in-kind contributions. The value of any in-kind contribution shall be agreed to in writing

prior to implementation.

Responsibilities of the Parties:

SPONSOR RESPONSIBILITIES

If inconsistencies arise between the language in the Statement of Work (SOW) in the agreement and the General Terms and Conditions, the language in the SOW takes precedence.

1. Perform the work and produce the deliverables as outlined in this SOW.

2. Comply with the applicable version of the General Terms and Conditions.

3. Accomplish construction of the EWP program project measures by contracting, in-kind construction services, or a combination of both.

4. Ensure and certify by signing this agreement that its cost-share obligation is from a non-Federal source.

5. Acquire adequate real property rights (land and water) and acquire permits and licenses in accordance with local, State, and Federal law as necessary for the installation of EWP program project measures at no cost to NRCS prior to construction. This includes any rights associated with required environmental mitigation. Costs related to land rights and permits are the Sponsor's responsibility and are ineligible for reimbursement.

6. Accept all financial and other responsibility for excess costs resulting from their failure to obtain, or their delay in obtaining, adequate land and water rights, permits, and licenses needed for the project.

7. Provide the agreed-to portion of the actual, eligible, and approved construction cost. These costs may be in the form of cash, in-kind construction services, or a combination of both. Final construction items that are eligible construction costs will be agreed upon during the pre-design conference. These costs are amounts from contracts awarded to contractors and eligible Sponsor in-kind construction costs for materials, labor, and equipment. The Sponsor shall provide NRCS documentation to support all eligible construction costs. Construction costs incurred prior to the Sponsor and NRCS signing this agreement are ineligible and will not be reimbursed, nor will such costs qualify as Sponsor cost-share.

8. Be responsible for 100 percent of all ineligible construction costs and 100 percent of any unapproved upgrade to increase the level of protection over and above that described in the DSR and the NRCS State Conservation Engineer's approved plans and specifications.

9. Account for and report Financial Assistance (FA)and Technical Assistance (TA) expenditures separately in order for expenses to be eligible for reimbursement. NRCS funding for this project is provided to the Sponsor in two separate NRCS funding accounts, one for FA and one for TA, requiring this separation. Separate itemization of FA and TA costs are required on form "Request for Advance or Reimbursement" (form SF-270).

10. Cost share must be documented on each Federal Financial Report (form SF 425) and payment request as it is provided by the Sponsor or third party. The required cost share ratio must be met by the end of the agreement period of performance; however, it does not have to be maintained for every payment request.

11. Must maintain written standards of conduct covering conflicts of interest and governing the actions of its employees engaged in the selection, award, and administration of contracts. No employee, officer, agent, or board member with a real or apparent conflict of interest may participate in the selection, award, or administration of a contract supported by the Federal award. A conflict of interest includes when the employee, officer, agent, or board member, any member of their immediate family, their partner, or an organization that employs or is about to employ any of the parties indicated herein, has financial or other interest in or a tangible personal benefit from an entity considered for a contract. An employee, officer, agent, and board member of the Sponsor may neither solicit nor accept gratuities, favors, or anything of monetary value from contractors. Reference 2 CFR § 200.318 regarding standards of conduct covering conflicts of interest and governing the performance of employees engaged in the selection, award, and administration of contracts.

12. For in-kind construction services (materials, labor, and/or equipment supplied by the Sponsor), develop a Plan of Operations describing the construction services to be performed, including estimated quantities and values. The Plan of Operations shall be concurred by NRCS during the pre-design conference. In-kind construction services for equipment shall not exceed published FEMA equipment rates unless otherwise documented and concurred in advance by NRCS.

13. The following documentation is required to support the Sponsor's request for reimbursement of in-kind construction

services.
a. Invoices covering actual costs of materials used in constructing the eligible EWP program project measures.
b. Records documenting the type, quality, and quantities of materials actually used in constructing the eligible EWP program project measures.
c. Daily time records for each employee showing name, classification, wage rate, hours, and dates employed for constructing the eligible EWP program project measures.
d. Equipment operating records showing the type and size of equipment, hourly rate, actual hours of operation and dates used to install the eligible EWP program project measures. Equipment idle time is not eligible as in-kind construction services, even if on the job site, and should not be included in the equipment operating records.

14. Ensure that any special requirements for compliance with environmental and/or cultural resource laws are incorporated into the project.

15. Must secure (at its own expense) all Federal, State, and local permits and licenses, and any necessary natural resource rights required for completion of the work described in this agreement. Provide copies of all permits and licenses obtained to NRCS.

16. Will arrange and pay for any necessary location, removal, or relocation of utilities. EWP program regulations prohibit NRCS from reimbursing the Sponsor or otherwise paying for any such costs, nor do the costs qualify as a Sponsor cost-share contribution.

17. Ensure that technical and engineering standards and specifications of NRCS are adhered to during construction of the project as interpreted by the NRCS Program/Technical Contact for this agreement. Provide the NRCS Program/ Technical Contact progress reports as agreed to and as necessary. Progress reports should include technical on-site inspections of work accomplished for the period, work planned, results of material tests, deficient work products and/or tests with corrective actions taken, modifications anticipated, technical problems encountered, contractual issues, and any other relevant information.

18. Ensure that all contractors on NRCS-assisted projects are performing their work in accordance with OSHA regulations and the Contract Work Hours and Safety Standards Act (40 USC 3701-3708) as supplemented by Department of Labor regulations (29 CFR Part 5). The Sponsor is responsible for periodically checking the contractor's compliance with safety requirements.

19. If applicable, provide PE-certified as-built drawings and quantities for the project. A copy of the as-built drawings will be submitted to the NRCS Program/Technical Contact.

20. Ensure that information in the System for Award Management (SAM) is current and accurate until the final Federal Financial Report (form SF-425) under this award or final payment is received, whichever is later. Payments will not be processed during the time the SAM registration is expired. Processing will only occur when the SAM registration is active.

21. Take reasonable and necessary actions to dispose of all contractual and administrative issues arising out of the contract(s) awarded under this agreement. This includes, but is not limited to, disputes, claims, protests of award, source evaluation, and litigation that may result from the project. Such actions will be at the expense of the Sponsor, including any legal expenses. The Sponsor will advise, consult with, and obtain prior written occurrence of NRCS on any litigation matters in which NRCS could have a financial interest.

22. Must indemnify and hold NRCS harmless to the extent permitted by State law for any costs, damages, claims, liabilities, and judgements arising from past, present, and future acts or omissions of the Sponsor in connection with its acquisition and management of the EWP program pursuant to this agreement. Further, the Sponsor agrees that NRCS will have no responsibility for acts and omissions of the Sponsor, its agents, successors, assigns, employees, contractors, or lessees in connection with the acquisition and management of the EWP program pursuant to this agreement that result in violation of any laws and regulations that are now or that may in the future become applicable.

23. Retain all records dealing with the award and administration of the contract(s) for three years from the date of the Sponsor's submission of the final request for reimbursement or until final audit findings have been resolved, whichever is longer. If any litigation is started before the expiration of the three-year period, records are to the retained until the litigation is resolved or the end of the three-year period, whichever is longer. Make such records available to the Comptroller General of the United States or his or her duly authorized representative and accredited representatives of the Department of Agriculture or cognizant audit agency for the purpose of making audit, examination, excerpts, and transcriptions.

Financial Reports (form SF-425): Semi Annual; Performance Reports: semi-annual

NRCS RESPONSIBILITIES

1. For sites requiring contracted engineering services, assist Sponsor in establishing design parameters. Determine eligible construction costs during the pre-design conference.

2. If applicable, designate a Government Representative to serve as liaison with the Sponsor and identify that person's contact information with this fully signed and executed agreement.

3. For sites requiring contracted engineering services, review, comment, and concur in preliminary and final plans, construction specifications, Operation and Maintenance (O&M) Plan, Plan of Operations (if required), and Quality Assurance Plan (QAP). For sites designed by NRCS, provide final plans, construction specifications, construction costs estimate, O&M Plan, and QAP to the Sponsor.

4. Make periodic site visits during the installation of the EWP program project measures to review construction progress, document conformance to engineering plans and specifications, and provide any necessary clarification on the Sponsor's responsibilities.

5. Upon notification of the completion of the EWP program project measures, NRCS shall promptly review the performance of the Sponsor to determine if the requirements of this agreement and fund expenditures as agreed have been met.

6. Make payment to the Sponsor covering the NRCS share of the cost upon receipt and approval of form SF-270 and supporting documentation. In the event there are questions regarding the payment request package, NRCS will contact the Sponsor in a timely manner to resolve concerns.

SPECIAL PROVISIONS

1. The furnishing of financial, administrative, and/or technical assistance above the original funding amount by NRCS is contingent on there being sufficient unobligated and uncommitted funding in the EWP program that is available for obligation in the year in which the assistance will be provided. NRCS may not make commitments in excess of funds authorized by law or made administratively available. Congress may impose obligational limits on program funding that constrains NRCS's ability to provide such assistance.

2. In the event of default of a construction contract awarded pursuant to this agreement, any additional funds properly allocable as construction costs required to ensure completion of the job are to be provided in the same ration as construction funds are contributed by the parties under the terms of this agreement. Any excess costs including interest resulting from a judgment collected from the defaulting contractor, or his or her surety, will be prorated between the Sponsor and NRCS in the same ratio as construction funds are contributed under the terms of the agreement.

3. Additional funds, including interest properly allocable as construction costs as determined by NRCS, required as a result of decision of the contracting officer or a court judgment in favor of a claimant will be provided in the same ratio as construction funds are contributed under the terms of this agreement. NRCS will not be obligated to contribute funds under any agreement or commitment made by the Sponsor without prior concurrence of NRCS.

4. The NRCS State Conservationist may adjust the estimated cost to NRCS set forth in this agreement for constructing the EWP program measures. Such adjustments may increase or decrease the amount of estimated funds that are related to differences between such estimated cost and the amount of the awarded contract or to changes, differing site conditions, quantity variations, or other actions taken under the provisions of the contract.

5. NRCS, at its sole discretion, may refuse to cost share should the Sponsor, in administering the contract, elect to proceed without obtaining concurrence as outlined in this agreement.

6. Once the project is completed and all requests for reimbursement submitted, any excess funding remaining in the agreement will be de-obligated from the agreement.

Expected Accomplishments and Deliverables

1. If applicable, prepare design, construction specifications, and drawings in accordance with standard engineering principles that comply with NRCS programmatic requirements; and/or contract/install the NRCS designed construction. Any design services will be by a professional registered engineer. Sponsor will obtain NRCS review and concurrence on the design, construction plans, and specifications. The Sponsor must ensure description of work is reviewed, concurred, and approved by NRCS. A copy of the final signed and sealed plans and specifications shall be provided to NRCS.

2. Contract for services and construction in accordance with the Code of Federal Regulations (CFR), 2 CFR § 200.317

through 200.327, applicable State regulations, and the Sponsor's procurement regulations, as appropriate. (See General Terms and Conditions attached to this agreement for a link to the CFR.) In accordance with 2 CFR § 200.327, contracts must contain the applicable provisions described in Appendix II to Part 200. Davis-Bacon Act would not apply under this Federal program legislation.

3. Provide copies of site maps to appropriate Federal and State agencies for environmental review. Sponsor will notify NRCS of environmental clearance, modification of construction plans, or any unresolved concerns as well as copies of all permits, licenses, and other documents required by Federal, State, and local statutes and ordinances prior to solicitation for installation of the EWP program project measures. All modifications to the plans and specifications shall be reviewed and concurred in by NRCS.

4. Prepare and submit for NRCS concurrence an Operation and Maintenance (O&M) Plan, if applicable, prior to commence of work. The O&M Plan shall describe the activities the Sponsor will do to ensure the project performs as designed. Upon completion of the project measures, the Sponsor shall assume responsibility for operation and maintenance.

5. Prior to commencement of work and/or solicitation of bids, submit for NRCS review and concurrence a Quality Assurance Plan (QAP). The QAP shall outline technical and administrative expertise required to ensure the EWP program project measures are installed in accordance with the plans and specifications, identify individuals with the expertise, describe items to be inspected, list equipment required for inspection, outline the frequency and timing of inspection (continuous or periodic), outline inspection procedures, and record keeping requirements.

6. Provide construction inspection in accordance with the QAP.

7. Arrange for and conduct final inspection of completed project with NRCS to determine whether all work has been performed in accordance with contractual requirements. Provide a PE certification that the project was installed in accordance with the approved plans and specifications.

- The grant officials understand that a violation of any term of the grant may result in the Commission placing a temporary hold on grant funds, permanently de-obligating all or part of the grant funds, requiring reimbursement for funds already spent, or barring the organization from receiving future grants.
- The grant officials agree to implement the program as described in the final grant application.
- Any indigent defense plan documents submitted to the Commission must continue to meet all grant eligibility requirements.
- The judges hearing criminal and juvenile matters must amend the Indigent Defense Plan for their respective courts to include the program funded under this award as necessary and submit it to the Commission by November 1, 2026.
- Disbursement of funds is always subject to the availability of funds.
- This grant requires quarterly progress reports to provide information on the operation of the program. TIDC will create a progress report to document the work performed in this program. The Grantee may request modifications to the report. See the Timeline for Reporting and Fund Distribution at the end of this document for dates.
- The Grantee must submit expenditure reports to obtain reimbursement of expended funds based on actual expenditures on the program. Grant funds are disbursed on a reimbursement basis according to the funded percentage in the award and proportional to

the Grantee's required match. See the Timeline for Reporting and Fund Distribution at the end of this document for dates.

- Grantees that use grant funds to contract for services must include in the contract provisions to monitor each contract that is for more than $10,000 per year. These provisions must include specific actions to be taken if the grantee discovers that the contractor's performance does not meet the operational or performance terms of the contract.
- A county shall continue to operate or participate in a program funded by a TIDC Improvement or Sustainability Grant for the duration of the grant funding and 48 additional months following the end of grant funding, unless for good cause as determined by TIDC. <u>Program Specific Terms and Conditions – Regional Public Defenders</u>

- The Grantee will directly operate the Tri-County Regional Public Defender's Office as defined in Article 26.044 of the Texas Code of Criminal Procedure to provide indigent defense services to X counties, including Maverick, Dimmit, and Zavala Counties. Participating counties will execute interlocal agreements with the Grantee reflecting the

scope of services and each participating Grantee's contribution to the cost of the program not covered by this grant.

- The Grantee must provide to TIDC copies of all interlocal agreements with counties participating in the regional public defender program.

- The Grantee must develop and maintain a Regional Public Defender Oversight Board in accordance with Texas Code of Criminal Procedure Article 26.045 to oversee the operation of this regional program and that incorporates stakeholders from the expansion counties funded under this grant. The Grantee must submit a draft policy detailing how the members are selected and the duties and procedures of the board to TIDC for feedback and approval prior to finalization. The Oversight Board must meet at least quarterly.

- The program's Oversight Board is responsible for recommending to the Commissioners Court the selection of the Chief Public Defender. The Chief Public Defender will be responsible for the implementation of this program and will hire staff sufficient to operate the department.

- The Grantee must provide to TIDC a Leadership Selection Plan for review and approval prior to posting the Chief Defender position. See "Texas Chief Defender Sample Hiring Rubric" and "Sample Chief Public Defender Job Description," available at http://www.tidc.texas.gov/improvement/system-building.

- The Grantee must develop a written policy that includes caseload standards for the public defender office as required in Texas Code of Criminal Procedure Articles 26.044 and that is consistent with research-based weighted caseload guidelines published by TIDC. The caseload policy must require the Chief Public Defender to review caseloads at least quarterly. The Chief Public Defender must notify TIDC and the program's Oversight Board in writing if caseloads exceed the adopted standards.

- Staffing with attorneys and support personnel must be supported by sufficient caseloads.

- The Commissioners Court must adopt a public defender plan of operation or proposal that addresses the elements enumerated in Article 26.044 (c-1), Code of Criminal Procedure.

- The judges must submit a copy of the public defender plan of operation or proposal approved by the applicable commissioners court as part of each indigent defense plan applicable to cases in which the public defender's office will provide representation, as required by Section 79.036(a)(2), Government Code.

- A Public Defender Office Case Representation Policies and Procedures Manual must be developed and provided to the Commission with the second quarterly progress report. The Public Defender Office should consider relevant professional standards of representation such as the Texas State Bar Performance Guidelines for Non-Capital Criminal Defense Representation when developing the manual. Any revised versions of

the Policies and Procedures Manual must be submitted with regular quarterly progress reports.

- The Grantee must track public defender employee data necessary and submit the public defender salary section of the annual Indigent Defense Expenditure Report detailing hire dates, separation dates, vacancies, and actual salaries for each grant-funded position.

- The Public Defender's Office must record attorney and support staff work time in a manner that allows for accurate completion of the Indigent Defense Expenditure Report and Public Defender Addendum. Records must contain sufficient detail to allocate time and salary across categories of offenses (capital, non-capital felony, misdemeanor, juvenile, felony appeals, misdemeanor appeals, and juvenile appeals) and to document the number of cases disposed by attorney for each court.

- Requests for proposals and contracts with third parties for indigent defense services under this grant must be submitted to TIDC for approval prior to contract execution.

- The County will require any contractor for core services under this grant to itemize the budget to the county in its proposal as required in Article 26.044 PDO, Code of Criminal Procedure.

- If the county contracts for core services under this grant the contract must contain a provision that the grant terms and conditions, including public defender office staffing and budgeted amounts, will be followed unless scope and/or budget adjustments are approved in writing by TIDC.

- Contracts for public defender services under this grant must include requirements for the public defender to report required progress report data to the County and TIDC in order to allow timely reporting according to the reporting schedule below. See the Timeline for Reporting and Fund Distribution at the end of this document for dates.

- If a non-profit corporation is selected by the County to operate the public defender's office, the contract must require the non-profit corporation to maintain at least one person in each regional office to serve as Chief Public Defender who meets the qualifications set forth in Article 26.044 (f) to supervise and manage the operation of the office and provide direct representation.

- Contracts must specify the maximum number of cases the contractor will handle, which must be consistent with TIDC published caseload guidelines. Contractors must notify grantee of any reduction in this number resulting from staff vacancies or any other factor impacting the contractor's representation capacity.

- Contracts must include provisions for cases that remain open at the end of the contract term.

- Contracts for indigent defense services must include a provision that contractors will not be paid amounts in excess of the total contract amount or the contractor's total eligible

program expenditures, whichever is less, and include provisions for the return of amounts paid in excess of actual eligible program expenditures after the end of the contract term.

- Grantees that use grant funds to contract for services must develop and follow a contract monitoring plan and include in the contract provisions to monitor each contract that is for more than $10,000 annually. These contract monitoring provisions must include specific actions to be taken if the Grantee discovers that the contractor's performance does not meet the operational or performance terms of the contract. In the case of contracts for public defender offices, these provisions must include a review of utilization and activity and financial data regarding actual expenditures to evaluate the contractor's performance within the budget required by statute for such programs. Performance terms should include but not be limited to:

  a. Quarterly reporting of actual program expenditures incurred during the period that are consistent with and do not exceed the approved grant budget.
  b. Quarterly staffing report detailing hire dates, separation dates, vacancies, and actual salaries each month for each position funded under the contract.
  c. Program organizational chart reflecting all program staff.

- Contracts for indigent defense services under this grant must require contractors to maintain time records that include actual time worked on the funded program with both the employee and supervisor signature to support staff time dedicated to program specific activities. Further, contracts must require contractors to maintain, retain, and be prepared to submit both invoices and proof of payment for all other costs approved in the grant budget and charged to this grant award. Contractors must be required to store and be prepared to provide access to records to the Grantee as necessary to monitor the contractor and grant program expenditures.

2. Personnel.

2.1. Saucedo represents that it presently has, or is able to obtain, adequate qualified personnel in its employment for the timely performance of the Scope of Services required under this Agreement and that Saucedo shall furnish and maintain, at its own expense, adequate and sufficient personnel, in the opinion of County, to perform the Scope of Services when and as required and without delays. All employees of Saucedo shall have such knowledge and experience as will enable them to perform the duties assigned to them. Any employee of Saucedo who, in the opinion of County, is incompetent or by their conduct becomes detrimental to the project shall, upon request of County, immediately be removed from association with the project.

3.2. All performance of the Scope of Services by Saucedo including any changes in the Scope of Services and revision of work satisfactorily performed will be performed only when approved in advance and authorized by County through an executed change order.

3.3. County will pay Saucedo based on the following procedures:

4. Limit of Appropriation.

4.1. Saucedo clearly understands and agrees, such understanding and agreement being of the absolute essence of this Agreement, that County shall have available the total maximum sum of NINE THOUSAND DOLLARS AND NO CENTS ($9,000.00) per month, specifically allocated to fully discharge any and all liabilities County may incur.

4.2. Saucedo does further understand and agree, said understanding and agreement also being of the absolute essence of this Agreement, that the total maximum compensation that Saucedo Family may become entitled to and the total maximum sum that County may become liable to pay to Contractor shall not under any conditions, circumstances, or interpretations thereof exceed NINE THOUSAND DOLLARS WITH NO CENTS ($9,000.00) per month.

5. Confidential Information.

5.1. Saucedo acknowledges that it and its employees or agents may, in the course of performing their responsibilities under this Agreement, be exposed to or acquire information that is confidential to County. Any and all information of any form obtained by Saucedo or its employees or agents from County in the performance of this Agreement shall be deemed to be confidential information of County ("Confidential Information"). Any reports or other documents or items (including software) that result from the use of the Confidential Information by Saucedo shall be treated with respect to confidentiality in the same manner as the Confidential Information. Confidential Information shall be deemed not to include information that (a) is or becomes (other than by disclosure by Saucedo) publicly known or is contained in a publicly available document; (b) is rightfully in Saucedo's possession without the obligation of nondisclosure prior to the time of its disclosure under this Agreement; or (c) is independently developed by employees or agents of Saucedo who can be shown to have had no access to the Confidential Information.

5.2. Saucedo agrees to hold Confidential Information in strict confidence, using at least the same degree of care that Saucedo uses in maintaining the confidentiality of its own confidential information, and not to copy, reproduce, sell, assign, license, market, transfer or otherwise dispose of, give, or disclose Confidential Information to third parties or use Confidential Information for any purposes whatsoever other than the provision of Services to County hereunder, and to advise each of its employees and agents of their obligations to keep Confidential Information confidential. Saucedo shall use its best efforts to assist County in identifying and preventing any unauthorized use or disclosure of any Confidential Information. Without limitation of the foregoing, Saucedo shall advise County immediately in the event Saucedo learns or has reason to believe that any person who has had access to Confidential Information has violated or intends to violate the terms of this Agreement and Saucedo will at its expense cooperate with County in seeking injunctive or other equitable relief in the name of County or Saucedo against any such person. Saucedo agrees that, except as directed by County, Saucedo will not at any time during or after the term of this

Agreement disclose, directly or indirectly, any Confidential Information to any person, and that upon termination of this Agreement or at County's request, Saucedo will promptly turn over to County all documents, papers, and other matter in Saucedo's possession which embody Confidential Information.

5.3. Saucedo acknowledges that a breach of this Section, including disclosure of any Confidential Information, or disclosure of other information that, at law or in equity, ought to remain confidential, will give rise to irreparable injury to County that is inadequately compensable in damages. Accordingly, County may seek and obtain injunctive relief against the breach or threatened breach of the foregoing undertakings, in addition to any other legal remedies that may be available. Saucedo acknowledges and agrees that the covenants contained herein are necessary for the protection of the legitimate business interest of County and are reasonable in scope and content.

5.4. Saucedo expressly acknowledges that County is subject to the Texas Public Information Act, Chapter 552, Texas Government Code, and notwithstanding any provision in the Agreement to the contrary, County will make any information related to the Agreement, or otherwise, available to third parties in accordance with the Texas Public Information Act. Any proprietary or confidential information marked as such provided to County by Saucedo shall not be disclosed to any third party, except as directed by the Texas Attorney General in response to a request for such under the Texas Public Information Act, which provides for notice to the owner of such marked information and the opportunity for the owner of such information to notify the Attorney General of the reasons why such information should not be disclosed. The terms and conditions of the Agreement are not proprietary or confidential information.

5.5. Saucedo in providing all Services hereunder agrees to abide by the provisions of any applicable Federal or State Data Privacy Act, including but not limited to, Health Insurance Portability and Accountability Act of 1996 ("HIPAA"), Health Information Technology for Economic and Clinical Health Act of 2009("HITECH"), and the Texas Medical Records Privacy Act ("TMRPA").

6. Medical Records and Reports.

6.1. Saucedo shall maintain complete and accurate electronic medical records (hereinafter "EMR") for every inmate regarding medical, dental, or mental health services received as a result of the inmate screening process and for services rendered following the inmate's assignment to a housing area. For purposes of this Agreement, an EMR is a real-time transaction processing database of medical information. Records will be kept in a professional and legally compliant manner consistent with the accepted practices of the professional medical community. These records shall be kept separate from the jail confinement records of the inmate. Records retention, expunction, and destruction will be coordinated with the County in accordance to all records retention laws.

6.2. Saucedo shall utilize its own EMR software and make those records available to County when requested.

6.3. Saucedo acknowledges compliance with and understanding of all applicable HIPAA/HITECH and state law medical privacy requirements. Saucedo shall develop and implement policies, standards and procedure to protect the confidentiality and security of all records and ensure that all employees are trained to adhere to security requirements. The retention of all records shall comply with applicable State and Federal laws and it is the responsibility of Saucedo to ensure compliance. Any cost or penalty incurred by County for a violation of HIPAA shall be reimbursed by Saucedo.

6.4. In any case where medical care is at issue, or in any criminal or civil litigation where the physical or mental condition of an inmate is at issue, Saucedo shall make all records accessible to the Sheriff, Jail Commander, Contract Administrator, District Attorney, or County Attorney; such disclosure being authorized by 45 C.F.R. §164.512(k)(5) including but not limited to: the administration and maintenance of the safety, security, and good order of the Maverick County Jail.

6.5. Saucedo shall prepare health summaries to be sent with inmates transferred to the Texas Department of Corrections. Saucedo will ensure that inmates and health summaries are appropriately prepared for transfer within twenty-four (24) hours of receiving the list of inmates being transferred, or as necessary.

6.6. If an inmate medical record cannot be located within twenty-four (24) hours of a discovered loss, the Contract Administrator shall be immediately notified.

6.7. Inactive medical records will be maintained in accordance with the laws of the State of Texas and the American Medical Association. Inactive files shall be prepared for imaging by Saucedo. This shall include removing duplicate documentation and staples and placing all paperwork in chronological order. The County Sheriff's Office will be responsible for the imaging of inactive files. Inactive files will be defined as files on persons who have not been in custody in the County Detention Facility during the past twelve (12) months.

6.8. Maverick County shall be the absolute and unqualified owner of all inmate medical records. Saucedo shall ensure that inmate health information is available to meet the needs of continued patient care, legal requirements, research, education, and other legitimate uses. In the event of subpoenas, Saucedo shall be the custodian of records created in the performance of services.

7. Term.

7.1. The Term of this Agreement shall commence upon September 1, 2026 ("Effective Date") and terminate on September 30, 2027 ("Termination Date"). This Agreement shall not automatically renew, and may only be renewed by signed agreement of both Parties.

8. Modifications and Waivers.

8.1. The parties may not amend or waive this Agreement, except by a written agreement executed by both parties. No failure or delay in exercising any right or remedy or requiring the satisfaction of any condition under this Agreement, and no course of dealing between the parties, operates as a waiver or estoppel of any right, remedy, or condition. The rights and remedies of the parties set forth in this Agreement are not exclusive of, but are cumulative to, any rights or remedies now or subsequently existing at law, in equity, or by statute.

9. Termination.

9.1. Termination for Convenience. County may terminate this Agreement at any time upon thirty (30) days written notice.

(a) If Saucedo fails to perform services within the time specified in the Scope of Services or any extension thereof granted by the County in writing;

(b) If Saucedo materially breaches any of the covenants or terms and conditions set forth in this Agreement or fails to perform any of the other provisions of this Agreement or so fails to make progress as to endanger performance of this Agreement in accordance with its terms, and in any of these circumstances does not cure such breach or failure to County's reasonable satisfaction within a period of ten (10) calendar days after receipt of notice from County specifying such breach or failure.

9.3. If, after termination, it is determined for any reason whatsoever that Saucedo was not in default, or that the default was excusable, the rights and obligations of the parties shall be the same as if the termination had been issued for the convenience of the County in accordance with Section 9.1 above.

9.4. Upon termination of this Agreement, County shall compensate Saucedo in accordance with Section 3, above, for those services which were provided under this Agreement prior to its termination and which have not been previously invoiced to County. Saucedo final invoice for said services will be presented to and paid by County in the same manner set forth in Section 3 above.

9.5. If County terminates this Agreement as provided in this Section 9, no fees of any type, other than fees due and payable at the Termination Date, shall thereafter be paid to Saucedo.

9.6. If County terminates this Agreement prior to the termination date, County shall not be subject to any early termination fee or other penalty.

10. Inspection of Books and Records.

10.1. Saucedo will permit County, or any duly authorized agent of County, to inspect and examine the books and records of Saucedo for the purpose of verifying the amount of work performed under the Scope of Services. County's right to inspect survives the termination of this Agreement for a period of four (4) years.

11. Insurance.

11.1. Prior to commencement of the Services, Saucedo shall furnish County with properly executed certificates of insurance which shall evidence all insurance required and provide that such insurance shall not be canceled, except on thirty (30) days' prior written notice to County. Saucedo shall provide certified copies of insurance endorsements and/or policies if requested by County. 11.2. If required coverage is written on a claims-made basis, Saucedo warrants that any retroactive date applicable to coverage under the policy precedes the effective date of the contract; and that continuous coverage will be maintained or an extended discovery period will be exercised for a period of two (2) years beginning from the time that work under the Agreement is completed.

12. Indemnity.

MAVERICK COUNTY
EMERGENCY and PAY POLICY

FEMA & TDEM COMPLIANT DISASTER RESPONSE &RECOVERY COMPENSATION

Purpose and Compliance Premise

This policy establishes standard protocol for employee compensation during an officially declared local state of disaster. To comply with FEMA 44 CFR 206.228 and TDEM Reimbursement Parameters, this policy is established prior to any disaster event and shall be applied uniformly across all emergencies, regardless of whether federal or funding is ultimately requested or received.

APPLICABLITY

This policy applies to all regular full-time, part-time, and backfill employees of Maverick County participating in disaster-related responses or recovery operations.

FORCE ACCOUNT LABOR COMPENSATION RULES

FEMA classifies county employees as "Force Account Labor" Reimbursement of labor cost is strictly dependent on the FEMA Task Category:

3.1 Emergency Work (FEMA Category A: Debris Removal & Category B: Emergency Protective Measures)

1. Permanent Full- Time Employees:
   - Regular/Straight-time hours spent on Emergency Work are not reimbursable by FEMA but will be paid at the employee`s standards base rate by the county.

- Overtime hours: All overtime hours worked in direct response to the emergency (exceeding 40 hours per workweek) are fully reimbursable by FEMA.
- Overtime will be paid at one-and-one-half (1.5) time the regular hourly rate.

2. Temporary / Additional Hires: Individuals hired solely to assist with the disaster response are eligible for FEMA reimbursement on both regular and overtime hours.
3. Backfill Personnel Employees called in to cover the regular shift of a colleague who has been deployed to emergency response operation are eligible for FEMA-reimburse overtime.

3.2 Permanent Work (FEMA Categories C through G: Roads, Bridges, Buildings, and Utilities)

1. For long-term recovery and permanent repair of county infrastructure, both regular(straight) time and overtime hours for permanent employees are eligible for FEMA reimbursement, provided that they are explicitly documented.

3.3 Exempt (Salary) Personnel

1. Exempt employees do not automatically qualify for overtime under the FLSA. However, to qualify for FEMA/TDEM reimbursement for extraordinary hours, the Commissioner`s Court must pre-authorize Disaster Compensatory Time or an Emergency shift differential. Hour-for-hour tracking must be utilize, and payouts must follow historical county structures.

TDEM MUTUAL AID & PORTAL TO - PORTAL PAY

If a Maverick County employee is deployed outside the county via the State of Texas Mission Assignment (STAR REQUEST):

Portal-to Portal Pay: Compensation begins the moment the employee reports to their home base for deployment and continues until they return to home base, including travel and operational rest periods, in compliance with the TDEM Mutual Aid Reimbursement Guide.

1. On-Duty Coverage: Hours during deployment that match the employee`s regular home shift schedule will be paid at the regular pay plus fringe benefits.

MANDATORY COMPLIANCE DOCUMENTATION

FEMA operates under an "if it wasn't documented, it didn't happened" rule. No disaster payroll will be processed or submitted for reimbursement without:

1. Daily Incident Logs (ICS Form 214): Every employee must maintain an Incident Action Log (ICS 214) detailing hour-by-hour task, location, and equipment use.
2. Disaster Project Codes: All hours worked must be explicitly separated from normal operations and logged under the unique FEMA/TDEM Disaster Declaration Code within the County Auditor`s electronic time-tracking system.
3. Supervisor Attestation: Timesheets and ICS 214 forms must be cross-referenced, verified, and physically or digitally signed by department Heads prior to grant packet submission.

TEXAS DEPARTMENT OF TRANSPORTATION

AIRPORT PROJECT PARTICIPATION AGREEMENT

(Federally and State Assisted Airport Development Grant)

TxDOT Project No.: 2722EPASS
Commission Approval: September 24, 2026
NPE Funds Applied: FY 26
UEI: NGDWKRNDM8C5
ALN: 20.116

Part I - Identification of the Project

TO: Maverick County, Texas

FROM: The State of Texas, acting through the Texas Department of Transportation

This Agreement is made and entered into by and between the Texas Department of Transportation for and on behalf of the State of Texas (the "State") and Maverick County, Texas (the "Sponsor").

The Sponsor desires to sponsor a project for the development of a public aviation facility, known or to be designated as the Airport under the Airport and Airway Improvement Act of 1982, as repealed and recodified in 49 U.S.C. § 47101 *et seq.*, ("Title 49 U.S.C."), and the State's rules, regulations, and procedures promulgated pursuant to Title 3 of the Texas Transportation Code.

The project is described as construction services to: reconstruct runway 13/31; rehabilitate apron and taxiway; install medium intensity runway lights and precision path indicator lights at 13/31; install lighted wind-cone; segmented circle; beacon and electrical vault at Maverick County Airport.

The Sponsor applies for federal and state financial assistance and desires the State to act as the Sponsor's agent in matters connected with the project described above, pursuant to Texas Transportation Code § 22.018 and as detailed below in Part IV.

The parties, by this Agreement, do fix their respective responsibilities, with reference to each other, with reference to the accomplishment of the project and with reference to the United States.

Pursuant to and for the purpose of carrying out the provisions of Title 49 U.S.C., and in consideration of (a) the Sponsor's adoption and ratification of the representations and assurances contained in the Airport Project Participation Agreement and its acceptance of this Offer as provided, and (b) the benefits to accrue to the United States and the public from the accomplishment of the project and compliance with the assurances and conditions provided, **THE TEXAS DEPARTMENT OF TRANSPORTATION, FOR AND ON BEHALF OF THE UNITED STATES, FEDERAL AVIATION ADMINISTRATION ("FAA"), OFFERS AND AGREES** to pay, as the United States and State Treasury share of the allowable costs incurred in accomplishing the project, ninety-five per centum of all allowable

project costs. This grant is made on and subject to the following terms and conditions:

Part II - Offer of Financial Assistance

1. The allowable costs of the project shall not include any costs determined by the State to be ineligible under Title 49 U.S.C., Title 3 of the Texas Transportation Code, or the Airport Zoning Act, Texas Local Government Code §§ 241.001 *et seq.*

2. It is estimated that construction project costs will be approximately $13,645,000 (Amount A). It is further estimated that approximately $13,645,000 (Amount B) of the project costs will be eligible for federal and state financial assistance, and that federal and state financial assistance will be for ninety-five percent (95%) of the eligible project costs.

   If federal funds are unavailable, this Agreement shall automatically be voided and become of no force and effect, except that unexpended or unencumbered moneys actually deposited by the Sponsor and held with the State for project purposes shall be returned to the Sponsor.

3. The maximum obligation of the United States and State Treasury payable under this offer shall be $12,962,750 (Amount C).

   This grant should not be construed as block grant funds for the Sponsor, but as a grant for funding of the scope items as listed on page one of this agreement. The State will provide federal funding to complete the approved work items of this grant and will not amend the scope of work to include items outside of the current determined needs of this project. Scope of work may be amended if necessary to fulfill the unforeseen needs of this specific development project within the spirit of the approved scope, subject to the availability of state, federal, and/or local funds.

4. It is estimated that the Sponsor's share of the total project costs will be $682,250 (Amount D). The Sponsor specifically agrees that, regardless of the estimated Amount D, it shall pay any project costs which exceed the sum of the federal and state share (Amount C). In the event the State determines that additional funding is required by the Sponsor at any time during the development of the Project, the State will notify the Sponsor in writing. The Sponsor will make payment to the State within thirty (30) days from receipt of the State's written notification.

   It is further agreed that the Sponsor will reimburse the State for any payment or payments made by the State on behalf of the Sponsor which are more than the federal and state percentage of financial participation as stated in Paragraph II-2. Upon completion of the Project, the State will perform an audit of the Project costs. Any funds due to the Sponsor, the State, or the Federal Government will be promptly paid by the owing party. The State shall refund to the Sponsor, at the financial closure of the project, any excess funds provided by the Sponsor. The State will not pay interest on any funds provided by the Sponsor.

5. If there is an overrun in the eligible project costs, the State may increase the grant to cover the amount of overrun not to exceed the statutory twenty-five (25%) percent limitation and will advise the Sponsor by amendment of the increase. Upon receipt of the amendment, the maximum obligation of the United States and State Treasury is adjusted to the amount specified and the Sponsor will remit their share of the increased grant amount.
